

Good evening

My report for the month of May

For the school board- the Winslow township school board is starting a citizens advisory committee

the following flyer for the committee will be on the Winslow township website and reads -The Winslow Township Board of Education is seeking members for its Citizens Advisory Committee. If you are a Winslow Township resident, 18 years or older, interested in serving on this Committee, please print and complete the bottom portion of the flyer, by no later than May 31, 2019, and return to the Board of Education Office.

The Citizens Advisory Committee was formed for the purpose of seeking advice, recommendations, and providing widespread involvement in issues affecting the district. As the district continues to grow and change, this Committee allows the Board to increase involvement in the school district by receiving input from the community on key issues that emphasize a collaborative and innovative learning partnership approach.

Now I know it says a requirement is to be a Winslow township resident . I talked to a member of the school board and he ensured me that if you are a parent of a student in the Winslow township school district you are welcome to join and give Chesilhurst a voice

our council members up here strive to serve and improve our community of Chesilhurst some of us are also involved and volunteer our time in our surrounding towns. I had the pleasure

On April 13 for the 3rd year to judge the skills USA carpentry competition in Edison at the carpenters training center .

kids from all New Jersey vocational schools competed in multiple carpentry categories from team build / plywood challenge/ fine carpentry/ and framing.

the winners will go on to compete at nationals in Louisville Kentucky.

The highlight for me getting the opportunity to judge this competition the last 3 years is I get to talk to the kids and educate them on a rewarding career in the building trades and remind them that there are more paths to take after high school than just college ,as the college path is not for everyone.

For more information and the full video go to cctnetwork.org

For emergency services we are still working on gathering accurate information to create the updated emergency response plan

I look forward to seeing everyone at Chesilhurst day and having a fun and safe day

This concludes my report thank you
